**Appendix A: Error Messages and Business Validations**

**APPENDIX A: ERROR MESSAGES AND BUSINESS VALIDATIONS**

**1. Error Processing**

This document explains how the error processing functionality will be handled for each account number. There are several basic types of error processing:

1. Front-end validation, which occurs when hitting the ‘Save’ pushbutton.
  2. Validation that occurs when the user clicks the ‘Validate’ pushbutton (FDS validation)
  3. Validation that occurs when the user clicks the ‘Submission Completeness Check’ pushbutton (FDS and DCF validation):
    - The Submission Completeness Check and the Submit Financial Data pushbutton will check to see that the submission completion check flag has been set to make sure the submission has been validated. If the submission has not been validated an error message will display.
    - The Submission Completeness Check will validate that if one or more programs is reported under the Full Accrual/post GASB 34 accounting method, then all programs must be reported under the Full Accrual/post GASB 34 accounting method.
    - The Submission Completeness Check will validate that the Internal Service Fund program is reported under either Full Accrual/ pre GASB 34 or Full Accrual/ post GASB 34. This program cannot be reported under Modified Accrual/ pre GASB 34.
- 2. Financial Data Schedule and Data Collection Form – The front-end validation for the FDS occurs when the user selects the ‘Save’ pushbutton. The following is a table that defines the error messages to be displayed for front-end violations. Using the Financial Data Schedule and Data Collection Form tables below, the data type, negative values allowed, zeros allowed, total fields, and the mandatory fields can be determined. No other validation occurs at this time.**

Violation	Error Message
Data Type	Invalid data format found. Please enter a valid numeric value and ensure there are no spaces.
Negative Total Value	The value of this line number cannot be negative. Please enter a positive number or ensure the summation of line items that total this field is positive.
Negative Value	The value of this line item cannot be positive. Please enter a valid value for this line item.
Date Value	Invalid date format was found. Please enter a valid date value and ensure there are no spaces
Zero Value	The value of this line item cannot be zero. Please enter a valid value for this line item.
Mandatory Value	This field is mandatory. Please enter a valid value for this line item.
Negative Total Size	This total value is under the acceptable amount. Please ensure the summations of line items are more than \$(100,000,000,000).
Positive Total Size	This total value well exceeds the acceptable amount. Please ensure the summations of line items are less than \$100,000,000,000.
